PERSONAL STATEMENT

Professional geek having a Bachelor of Computer Science and a Master degree of Computer Network Administration and Management. Have excellent technical skills, communication skill, and skilled in analysing computer network requirements, planning/design and developing software and hardware computer networks. I am motivated and enthusiastic by new challenges and tasks and take excellent approach to achieve success in all projects. I am capable of working in a team and without supervision.

WORK EXPERIENCE

Software Deployment Specialist – 2022 - Present
Classified

As a vital member of the deployment team, I consistently deliver projects on tight timelines, leveraging expertise in Ansible, Terraform, Docker, Python, Bash, Git, Proxmox, pfSense. My collaborative approach shines when working with development teams, ensuring rigorous testing and proposing enhancements. I excel in crafting detailed internal documentation and developing tools to optimize deployment processes. I provide crucial daily assistance to 1st and 2nd line support, solidifying my reputation as a valuable contributor to the deployment team's success.

IT Administrator – 2018 - 2022
Classified

As the IT Systems Administrator for the Limassol branch, I oversee and manage all IT systems, providing crucial technical support to a team of skilled software engineers. I handle the administration of Palo Alto, FortiGate, pfSense, UniFi firewall appliances, and Cisco switches. Proficient in virtual environments with VMware and Veeam for autonomous backup solutions, I deploy and manage various hosts, including HPE, Dell, SAN Storage, Microsoft Server, Linux Server, and Synology. I utilize monitoring solutions such as Centreon (Nagios), Graylog, and custom bash scripts. Additionally, I lead procurement and asset management procedures through SnipeIT and actively contribute to improving the branch's workflow by testing new software and hardware.

Outsource IT – 2017 - 2018
RunStop Electronics Co. Ltd

With a focus on customer satisfaction, I've provided direct support to promptly resolve technical issues and inquiries. My expertise spans deploying Ubiquity-based WiFi networks, administrating Active Directory environments, and managing Microsoft 365 and KerioConnect domains. Proficient in the administration of diverse networks and hosts, including Microsoft Server, Linux Server, VMware ESXi, FortiGate, Endian UTM, and Cisco systems, I excel in seamless migration onto new equipment. Additionally, I offer L1 technical support to customers and specialize in deploying efficient POS systems.

CERTIFICATES

- MTCNA – Certified Network Associate (2019)
- CCNA Routing & Switching (2018)

EDUCATION

University of Portsmouth 2016 - 2017
MSc Computer Network Administration and Management (Merit)

University of Portsmouth 2012 - 2015
BSc (Hons), Computer Science *(2:1)*

Lyceum of St. Charalambous 2008 - 2011
Certificate of Secondary Education *(17/20)*
